Thinking About

Let’s look at data interpretations again, this is really important. We often see that children who are not engaged in summer activities can begin to lose reading skills during the summer months. When children do not engage in summer activities, they can lose up to three months of reading achievement during the summer months.

Research shows that without access to quality learning opportunities, children can lose more than two months of achievement during the summer. Unfortunately, too many kids, often of low-income families, lack access to quality educational and developmental opportunities during the summer months.

This year’s Summer Learning Day (SLD) is expected to be an unprecedented event. Students and teachers are encouraged to participate in the event to help students avoid the Summer Slide and maintain reading proficiency.

To learn more about local activities like this summer in both Sarasota and Manatee County, visit www.SummerLearningFlorida.org.

Organizations and communities are working to keep kids learning, safe and engaged. All young people need a strong foundation and a head start to be successful. Summer Learning Day will help us "slide" the needle on reading proficiency to a level we want to reach.

Kids and families are encouraged to participate in Summer Learning Day activities to help keep kids learning, safe and engaged during summer break.

Attention: Educators, policymakers, and businesses, to post and share their summer learning opportunities.

Did You Know?

All young people who experience learning losses where they do not engage in educational activities during the summer.

Most students lose about two months of grade-level equivalency in mathematical computation skills during the summer.

Low-income students lose more than the median in reading achievement while their middle-class peers, after eight weeks.

Children lose more than academic knowledge over the summer. Most children (60 percent) of children have a high risk of obesity—gain an average of two pounds during the summer.

Local organizations in communities,рагe, schools, educators, policymakers, and businesses, are working to post and share their summer learning opportunities.

Join the movement, which currently includes more than 300 Summer Learning Day activities. Join us in the annual national advocacy day led by the National Summer Learning Association’s (NSLA) annual national advocacy day led by the National Summer Learning Association (NSLA) to tackle summer hunger with summer meal programs. Visit www.SummerFoodFlorida.org for more information.

All young people need a strong foundation and a head start to be successful. Keep Kids Learning, safe and engaged.

Let’s face it, with temperatures regularly reaching up to 90 degrees, summer is a challenge. But with schools out of session, it’s a time when kids need to be learning. Summer Learning Day is an opportunity to move the needle on reading proficiency to a level we want to reach.

Low-income students also lose more than the median in reading achievement while their middle-class peers, after eight weeks.

There are wonderful summer programs happening all over Sarasota and Pinellas County. Each day in June, 400 kids will spend their day at the South Florida Museum.

According to the NSLA, research shows that without access to quality learning opportunities, children can lose more than two months of achievement during the summer. Unfortunately, too many kids, often of low-income families, lack access to quality educational and developmental opportunities during the summer months.
