

SUNCOAST Weekly Census 2020 Education Network Update

The Patterson Foundation is engaging in the Census 2020 Education project with the hope to more closely align community efforts and knowledge across Charlotte, DeSoto, Manatee, and Sarasota counties. You were identified as a community advocate for achieving a complete count during Census 2020. Please feel free to share this newsletter.

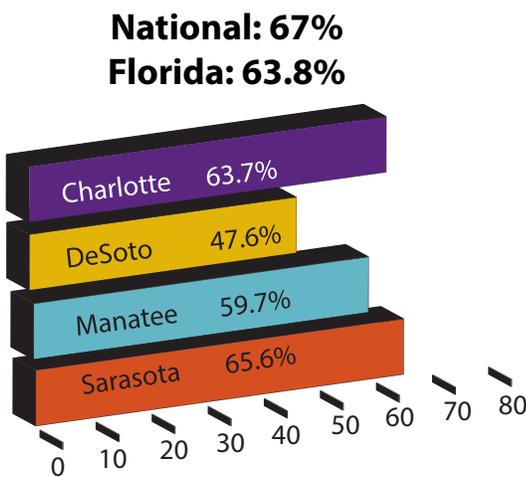

THANK YOU!

to our Suncoast Census 2020 Advocates!

Over the last 10 months, and more, you have demonstrated your caring for our community through efforts to support a complete count in Census 2020. Like much of this year, there were unexpected twists and last minute adaptations that truly brought out the best in our region. As the final data makes its way through the Census Bureau's tabulation process and into the White House for final approval, it will be a little while before we have the true numbers. The total enumeration (door to door + self response) is being reported as 99.9%. Florida landed 34th overall in self-response rates compared to all 50 states and Washington, D.C. Your help in educating the community about Census 2020 was invaluable!

A major thanks to the Census 2020 Education project team, including Matt Sauer and Brian Ries at the Sarasota Herald-Tribune, Roxanne Joffe and Gaby Connor at MagnifyGood, Debra Jacobs, Beth Duda, Deborah Gauvreau, Tom Tryon, and Jake Hartvigsen at The Patterson Foundation. Additionally, join me in thanking Nancy Henry and Stacy Sternberg who made this weekly update possible!

Self-Response Status

Lowest in Florida
Dixie County: 31.7%

Highest in Florida
Seminole County: 73.6%
